Summary: The number of galaxies in the universe is two trillion (2×10^{12}) or and as many as an estimated 1×10^{24} stars (more stars than all the grains of sand on planet Earth). Lord Jesus is the creator and sustainer of this vast and wondrous universe and was with the Father before ever the universe existed.

Directions: Taking the white paper mix bright colors like yellow, red, green, blue and violet (watch the video). Let the paper dry. Then tearing the paper into various shapes, glue them onto the black paper. Once done, take a white gel pen and or tooth brush with white acrylic paint to create your picture of our Lord's beautiful vast universe.
